BLEAK THE MONOTONY, AND MR. MORSE CAUSES QUITE A FLUTTER GF WINGS. . IBY TELEGRAPH TO THE TRIBUST

Washington, Feb. 5.-The "cuckoos" in the House of Representatives all sing the same words to one and the same tune about Hawaii. If there ar any variations whatever they are so slight and so immaterial as not to attract attention. Some Democrats who have sung this ditty have done so with reluctance and marked lack of enthusiasm, and many more who will vote that the concert has been a success are privately upbraiding themselves for their own cowardice and cursing the President and his Secretary of State, as well as "Paramount" Blount and Minister Willis, for having, as they express it, "put the Democratic party into a hole." In conversation with a Tribune correspondent this after-

noon, one of them said: "Yes, we are in a mess on account of this Hawallan business, but I suppose we will all have from to take hold and pull President Cleveland and Secretary Gresham out by voting for the resolution reported by the majority of the Committee on Foreign Affairs," And yet this man has nothing but censure for the Cleveland-Gresham policy toward Hawaii.

WHY THEY SUPPORT THE RESOLUTION. There is no ground for belief that the pro-Administration speeches in the pending debate have changed or will change the private judgment of a single mamber of the House, and most of them, even on the Democratic side, regard extant, unless possibly by President Dole's reply on Mr. Washburn the resolution of which Chairman McCreary is in charge as impertinent. They realize that if the majority adopts it the people of the United States will regard it with greater contempt and disgust than ever. And yet it now seems probable that every Democratic Representative who is in his seat to-morrow afternoon will vote for the resolution, and most, if not all of them. efforts to restore the savage Queen had been sucagainst the substitute and every amendment | cessfel, there would have been witnessed for the that may be offered. They will do this, not her first time the successful impeachment of an Amercause they have been enchanted by the melodies cause they have been enchanted by the merodies or convinced by the arguments, if such they may the arguments are also are be called, of the "cuckoo" statesmen, but as General Elack bluntly said, addressing himself to the Republican side this afternoon, "because you For the last twenty-five years since the days of repropose to censure President Cleveland, and we

don't intend that you shall do it." Everybody knows not only that President Cieveinterested observers of the proceedings in Con-Administration been reduced by its own reckless only white men and women, but nearly sil or quite to work off a lot of badly damaged party principles and traditions upon Congress by offering efficial chromos as prizes."

THE PRESIDENT SAYS THEY MUST.

The President, it is understood, has informed Democratic members of the Committee on Foreign Affairs and other leading Democrats that the resolution reported by the majority of the committee must be adopted in its present form and that no word or sentence must be admitted which by any possibility could be tortured into a criticism of the policy or acts of his Administration in regard to Hawaii. It is even asserted that he insists that the second paragraph of the resolution, which implies that "interference with the domestic affairs of an independent nation is contrary to the spirit of American institutions," despite the fact that he has so intely done that very thing in a most repulsive and deceitful manner, shall not be modified.

It is noticeable that as the time draws near when a vote is to be taken. Democrats who are disgusted with the whole business are becoming more outspoken and severe in their denunciations of the Secretary of State, who, they assert, is responsible, for the trouble into which the party has failen.

Mr. Outhwaite—I object to the insolent and insuling language addressed to this side of the House.

\*\*CUCKOO'' RULED UNPARLIAMENTARY LANGUAGE\*\*

After a little delay the words were taken down and rend at the desk, when Mr. Morse arose to explain his remarks, but the Speaker called him to order. The Speaker, after weighing the words, gave his opinion that the language was not parliamentary; that no member had the right to speak of any member of the House or Senate as being controlled by their master, the President.

On motion of Mr. Burrows (Rep., Mich.), Mr. Morse was allowed to explain, Mr. Outhwaite slone withdrew the objectionable words relative to the control of the Democrats by their master, the President. that the resolution reported by the majority of

THE SAME OLD SONG.

The speeches of the "cuckoo" statesmen to-day did not differ materially from those delivered in support of the resolution last week. They all possessed the same ancient flavor, and fought shy of everything that has happened since the appointment of Mr. Willis as Minister to Hawaii, except in so far as two or three of the speakers, notably Colonel Oates, of Alabama, attempted to show that the action of Minister Stevens and Captain Wiltse at the time of the revolution of 1893 was a helicus offence and an unwarrantable interference in the domestic concerns of Hawaii, while the action of the present Administration and Irs disjoinable representative, in attempting to impose conditions upon the deposed Queer as the price of her restoration to the throne which she had abdicated, and the overthrow of an established and friendly Government, which had been recognized by the United States, was not only wise and meritorious, but in strict consonance with the American policy of non-interference in the domestic affairs of foreign nations and governments. all possessed the same ancient flavor, and

As on every other day since the debate be-can, the champions of the Administration cut a sorry figure. Few Democrats were in their seats, and those who were seemed indifferent seats, and those who were seemed indifferent and unsympathetic for the most part while Democrats were rehearsing the old story, but interested whenever an opponent of the reselution took up the tale where the Democrats left off and discussed the real issues involved. A remark dropped by Mr. Morse, of Massachusetts, cut so deep that the Democrats winced, and Mr. Outhwalte, who did not regard Mr. Catchings's atroclous attack upon Mr. Boutelle last Friday as being in the least objectionable or unparliamentary, called Mr. Morse to order and demanded that his words, which the Ohio statesman denounced as "insulting, impudent and unparliamentary," should be taken down and reported to the House.

The Speaker ruled that the language was unparliamentary and Mr. Morse withdrew it. Mr. Outhwalte did not deny that Mr. Morse's statement was true, nor did the Speaker, but Mr. Morse was made to realize that it is sometimes unparliamentary to speak the truth in a Democratic House of Representatives.

STRONG REPUBLICAN SPEECHES.

STRONG REPUBLICAN SPEECHES.

Exceedingly strong and able speeches in opposition to the resolution were delivered by Messrs. Johnson, of Indiana; Boutelle, of Maine, and Van Johnson, of Indiana; Boutelle, of Maine, and Van Voorhis, of New-York, who thoroughly dissected the acts and policy of the Administration in regard to Hawaii, clearly showing that the former were unprecedented and unlawful, that the latter was un-American, and that both were disgraceful. Mr. Boutelle's speech was warmly applauded by the Republicans, and it was a disappointment to the "cuckoo" leaders, who had been congratulating themselves beforehand and saying, "Wait until Boutelle speaks. He will drive the Democrats together on this question."

There is some doubt as to whether the resolution reported by the majority of the Committee There is some doubt as to whether the resolution reported by the majority of the Committee
on Foreign Affairs will be passed in its present
form to-morrow if at all. A good many of the
Republicans are disposed to take the ground
that inasmuch as the resolution is simply an attack upon the last Administration by the present one and by the Democratic majority in the
House, the Democratic ought to be compelled to
furnish the quorum necessary to pass it—a thing
which would be difficult and possibly impracticable on account of the lack of enthusiasm
and veiled hostility in their own ranks. It is not

THE POLICY OF CONCEALMENT AND DUPLICITY.

Mr. Boutelle arraigned the one-sidedness of the resolutions reported by the Committee on Profugn Affairs. It had no strictures for any one except those two men. Stevens and Wiltse, who stood in Hawali in defence of the traditional American policy of closer connection with the Hawaiian group. And nothing was to be said of President Cleveland, Minister Willis or Mr. Ribourt, who had dragged the fair fame of the country in the dust. Republican applaase, The escutches of the United States had been untarnished up to the 4th of March, 1885; but then was inauqurated a policy of concessiment, and englishing and good will and in the other an order of assassination. "Oh, Mr. Speaker," he said, "you do not dare to uphold such a minimum propositi

in this age; you cannot do it." (Laughter and appinisse).

He appealed to the House to wipe out the infamy which had been perpetrated in the name of a high-minded government which up to eight months ago had had no cause to blush for its record. Only the President and an apostate Secretary of State had brought this degradation on the Nation, but even that was not enough. Not only must we send a spy to uproof American institutions and American influence in an island which is the key to the Pacific Ocean, but we must also degrade our American navy by putting it in the hands of a Georgia politician in order to get some one who would give the order to "had down the American flag."

THE DEMOCRACY'S RECORD. selves." he cried sarcastically, as he turned toward the Democratic side of the House. "This policy of infamy is branded by a free and independent Democratic press, and a policy of infamy it will be forever." (Republican applause.)

Mr. Boutelle closed his speech by an eloquent and impassioned recital of the lines of David Graham Adee on the hauling down of the flag at Hawaii, delicated to the memory of Captain Wiltse, of the warship Boston. The close of the speech was vociteronsly applauded, and when he took his seat the Republican members crowded to congratulate kim. infamy is branded by a free and independent Dem-

Mr. Black (Dem., Ill.) took the opposite side of the argument and delivered a witty speech.

Mr. Van Voorhis (Rep., N. Y.) appealed for amexation of the islands.

At the conclusion of Mr. Van Voorhis's speech Mr. McCreary (Dem., Ky.) moved that at 520 the House take a recess till 8 p. m., the evening session to be for debate only on the Hawalian question. The motion was agreed to, although Mr. Reed (Rep., Me.) suggested that there was no necessity

for an evening session, and that it would be much better to let the debate go on regularly for a day

better to let the detate go on results or two longer.

Mr. Griffin (Dem., Mich.) was the next speaker.
He said that he cordially and enthusiastically indorsed the Administration. He would not change the dotting of an "i" or the crossing of a "t" in what had been said or done by the Administration in regard to Hawaiian affairs.
At 5.55 the House took a recess till 8 p. m.
At the evening session the speakers were Messrs.

He began by saying that the Senate turned now from the question of money to the superior question of man and his Banks and tariffs, stocks and trade, migh rise or fall, but freedom was the common heritage of the American people. Controversies over silver and bonds were incidental and ephemeral. Vigithe honesty of the suffrage was vital, and had to be eternal if the Republic was to live.
